VINA & ALKOHOLNA PIĆA | WINE & SPIRITS

Nova LL linija proizvoda impresionira svojim modernim industrijskim dizajnom i s puno fleksibilnosti. Ovako je naš LL-POP UP! Čelični okvir postavi se brzo i jednostavno. Umetanjem panela, polica i raznih ormarića, u kratkom vremenu nastaje samostojeći prezenter po vašim potrebama. Otkrijte i naše svestrane zidne elemente. Ponudu zaokružujemo prikladnim priborom, sjedećim elementima i rasvjetom.

Neka vas inspiriraju naši prijedlozi za opremanje i naši novi proizvodi posebno za vino i alkoholna pića! Veselimo se kako će te uživati u prikupljanju novih ideja, a tu smo kako bi vas i osobno savjetovali!

The new LL-product line captivates with modern industrial design and high flexibility. Thus, our LL-POP UP! steel frames can be quickly unfolded and easily set up. Through placing panels, shelves and furniture cabinets, a freestanding display unit is created in no time. Discover also our various wall units for example. Our product range is complemented by matching accessories, seating furniture and lighting.

Be inspired by our furnishing proposals and new products specially designed for wine and spirits! We hope you will enjoy collecting new ideas and we also would like to consult you personally.

JEDNOSTAVNO I BRZO POSTAVLJANJE!  
EASY AND QUICK SET-UP!

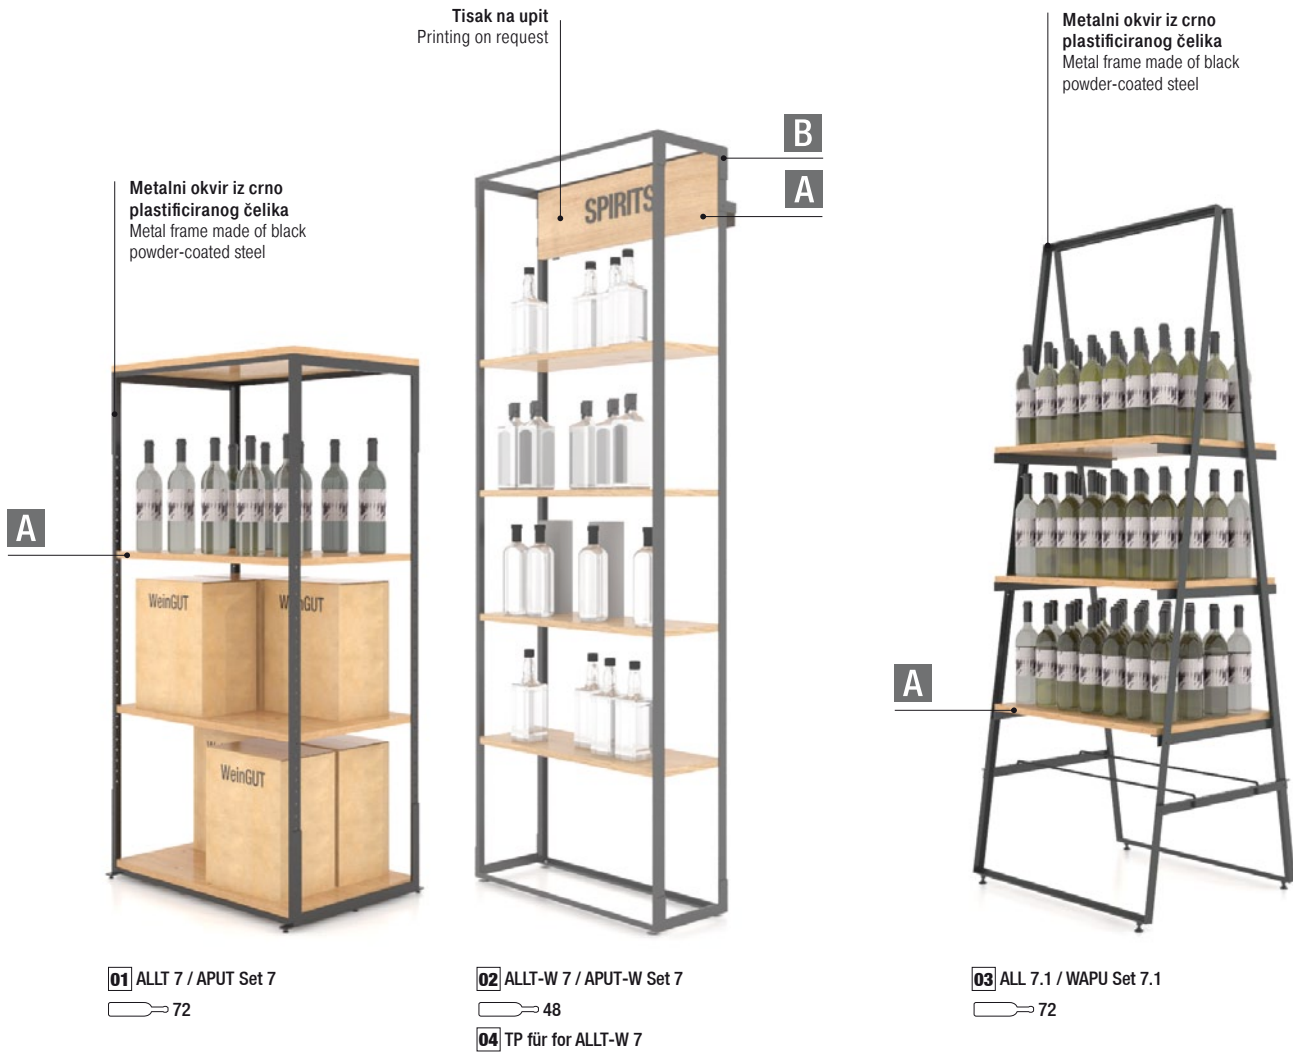

Nova linija proizvoda LL-POP UP! definira fleksibilnu opremu i prodajno promotivna područja na potpuno novi način: Čelični okviri mogu biti brzo i lako postavljeni, gotovo bez alata i očaravaju modernim industrijskim dizajnom. Paneli, police i ormarići za namještaj jednostavno se postavljaju unutar dva koraka. Najbolji su uvjeti za reagiranje na promjenjive potrebe iznova i iznova, kao što su razna događanja ili potrebna preseljenja.

The new product line LL-POP UP! defines flexible shop fittings and sales promotion areas in a complete new way: The steel frames can be quickly and easily unfolded and set up almost without tools and captivate with modern industrial design. Panels, shelves and furniture cabinets are simply placed in a second step. The best conditions for being able to react to changing requirements again and again, such as events or necessary relocation.

OSVJETLJENJE I OZVUČENJE [LIGHTING & SOUND SYSTEM]

Prostor se definira preko zvuka. Dobra akustika utječe na osjećaj ugone i produljuje zadržavanje u prostorima orijentiranim kupcima – idealno za prodajne i promidžbene površine. WiFi rješenje je prikladno za svaku novu instalaciju, kao i za bežično naknadno opremanje, čak i tijekom normalnog poslovnog vremena.

Space is defined by sound. Good acoustic quality influences well-being and increases the length of stay in customer-focused environments - ideal for sales and commercial areas. The WiFi solution is perfect for new installations, as well as for wireless retrofitting, even during business operations.

Unutar raspona odašiljača možete koristiti koliko god zvučnika želite te svi rade apsolutno sinkronizirano. Jačina zvuka se može podešavati za svaki zvučnik zasebno.

Within the range of the transmitter you can use as many speakers you want to, all running absolutely synchronous. The volume can be adjusted for each speaker device separately.

Konstantni zvučni tepih u svim položajima slušanja zahvaljujući patentiranoj tehnologiji membrane NewTec. Posebna konusna geometrija iz serije Cono WiFi stvara vrlo prisutnu, ujednačenu distribuciju zvuka, Hi-Fi kvalitete uz 360° disperzije, pa je time izvor zvuka nemoguće locirati.

A constant sound scape in every listening position is created thanks to the patented NewTec membrane technology. The special cone-shaped geometry of the Cono WiFi Series produces a very present, not locatable, even 360° sound dispersion with Hi-Fi quality.

Ukopčajte zvučnik u sabirnicu, povežite WiFi odašiljač s bilo kojim audio izvorom i pokrenite glazbu – gotovo!

Clip the speaker into the busbar, connect the WiFi transmitter with any audio source and start the music - ready!

## USLUGE

### SUSTAVI ZA PREZENTACIJU I OPREMANJA TRGOVINA ZA MALOPRODAJU I INDUSTRIJU ŠIROM SVIJETA

Razvojem inovativnog dizajna prezentacija za naočale i obradu visokokvalitetnih materijala, temeljeni na više od 25 godina iskustva u Opremanje trgovina, concept-s se već uspješno uspostavio na tržištu i jedna je od vodećih tvrtki u ovom sektoru širom svijeta. Oko 65% proizvoda concept-s, od stručnjaka za opremanje trgovina iz Schorndorfa, prodaje u inozemstvu. Osim optičke industrije nudimo i prezentacijske sustave za frizere, satove, nakit i pribor.

Osim serijske proizvodnje i svjetske prodaje, tim na čelu s generalnim direktorom Lukas Schroll također dizajnira i realizira kompletne projekte od dizajna do završetka. Ovdje, dizajneri interijera concept-s korisniku pružaju savjet tijekom čitavog planiranja i kroz sve faze izvedbe.

### SHOP DESIGN AND DISPLAY SYSTEMS FOR RETAIL SALES AND INDUSTRY WORLDWIDE

By developing innovative presentation design for spectacles and processing high-quality materials and based on more than 25 years of experience in shop fitting, concept-s has already established successfully in the market and is one of the leading companies in this sector world-wide. About 65 % of the products from concept-s, shop fitting specialists from Schorndorf, are sold abroad. Besides the optical industry we also offer presentation systems for hairdresser, watches, jewellery and accessories.

In addition to serial production and worldwide sales, the team headed by managing director Lukas Schroll also designs and implements complete projects from design to completion. Here, the interior designers of concept-s provide the customer with advice during the entire planning and execution phase.

Ovisno o modulu i dodacima možete birati između različitih dekora. Koristimo odabrane proizvode od iverala, debljina 8 - 19 mm. Naše površine su dostupne u mat dizajnu.

Osnovne čelične konstrukcije uvijek isporučujemo crno plastificirane. Bijela ili druge RAL boje dostupne su na zahtjev. Obrađujemo akrilne staklene ploče debljine 3 - 8 mm (ovisno o modulu).

According to module and accessories you can choose from different decors. We use selected decor laminated derived timber products in a thickness of 8 – 19 mm. Our surfaces are available in a matt design.

Basic construction made of powder-coated steel are always delivered in black. White or other RAL colours are available on request. We process acrylic glass panels in a thickness of 3 – 8 mm (depending on module).
